PROFESSIONAL SUMMARY

Recent BS Computer Science graduate with hands-on experience in web development, database management, and Python/Django application development, including a face recognition-based attendance system. Skilled in HTML, CSS, JavaScript, and MS Office, with a strong foundation in programming and problem-solving. Seeking an entry-level IT, QA, or technical support role to apply technical skills, contribute to team goals, and grow within a dynamic organization.

EDUCATION

BS Computer Science — Air University *2021 – 2025*
CGPA: 3.56 / 4.00

ICS (Physics) — Gujranwala Board *2019 – 2021*

Matriculation (Science) — Gujranwala Board *2017 – 2019*

INTERNSHIP EXPERIENCE

Intern — Codecelix Software House

- Assisted in software development tasks, gaining practical exposure to real-world development workflows and team collaboration.
- Applied academic knowledge of programming and web technologies to support ongoing projects.
- Strengthened technical and problem-solving skills in a professional software house environment.

PROJECTS

Gym Fitness Website

- Designed and developed a responsive gym/fitness website using HTML, CSS, and JavaScript.
- Implemented clean, user-friendly UI layouts for service listings and membership information.

Final Year Project: Attendance System Using Face Recognition

- Built an automated attendance system using Python, Django, and Dlib for real-time face recognition.
- Integrated a front-end interface with a backend database to record and manage attendance data.

Personal Portfolio Website

- Developed a personal portfolio website to showcase projects, skills, and resume in a clean, professional layout.

SKILLS

- Programming & Development: Python, Django, HTML, CSS, JavaScript
- Database Management
- MS Office (Word, Excel, PowerPoint)
- Web Development
- Face Recognition / Applied Machine Learning Basics (Dlib)
